RP2 Titration – Knowledge Organiser

AQA GCSE Chemistry • Set 1: Titration Paper 1 Triple only

#	Question	Answer
1	Glassware for measuring the alkali	Pipette (25.0 cm^3)
2	Glassware for the acid	Burette
3	Indicator	Methyl orange or phenolphthalein
4	Why a white tile is used	To see the colour change clearly
5	Why do a rough titration first	Find the approximate end point
6	How acid is added near the end point	Dropwise
7	Where the burette is read	Bottom of the meniscus
8	Concordant results	Within 0.10 cm^3
9	Mean titre	Average of concordant results
10	Why the flask is swirled	Mixes the solutions
