RP9 pH Curves – Knowledge Organiser: Self-Test

AQA A-level Chemistry • Set 1: pH Curves **Paper 1**

#	Question	Attempt 1	Attempt 2	Attempt 3	Answer
1	Instrument used				pH meter
2	How the pH meter is calibrated				Buffer solutions of known pH
3	Rinse the probe with				Distilled water
4	Volume added near the equivalence point				Small portions (dropwise)
5	Why small volumes near the end point				pH changes sharply
6	Why the flask is swirled				Ensures mixing
7	Graph plotted				pH against volume added
8	Equivalence point on the graph				Middle of the vertical section
9	pH at half-equivalence				pK_a
10	Use of half-equivalence point				Find K_a

Fold the Answer column behind the page. Answer each question from memory, then unfold and check. Repeat on a later day in the next Attempt column.
